

VOLVO XC60

WE'RE VOLVO CARS.

We put people first.

We're Swedish. Scandinavian designers always start with the person who's going to use an object and ask, "What can we do to make this person's life better, easier or more comfortable?" We've always used this philosophy when we design our cars. So, while other car manufacturers might start with technology and try to squeeze people in around it, we begin by designing our cars around you. We ask what you need, and then use our technical skills to make your life easier, better, safer and more beautiful. Form follows function, and when you design a car inside and out with people in mind, it looks naturally beautiful. We think that looking at and interacting with our cars should make you feel great, every day. Designing cars around people has led to many innovations over our

88-year history. You know the three-point safety belt in your current car? That was our invention from 1959. And now we're working towards our vision to design cars that should not crash. In the shorter perspective, our aim is that by 2020 nobody should be killed or seriously injured in a new Volvo. Of course, you'll already benefit from this research in your current Volvo. We've addressed a few environmental issues, too – in 1976, we developed the lambda sond – a sensor that monitors exhaust gas, reducing emissions and boosting performance as well as economy. It's still part of every petrol-engined car in the world. Innovation is at the core of Volvo Cars – it's because of where we come from.

THE VOLVO
EXPERIENCE | 48

If you're looking for a premium SUV which combines refinement with capability, the Volvo XC60 is for you. Whether you go about your city life or whether you're off on a break out of town, this is the SUV to do it in. Not only does it offer you the practical appeal of a commanding driving position, all-weather capability and versatile functionality. Its Scandinavian design also make it a suitably distinguished companion for a night at the opera.

At the heart of the dynamic, natural driving experience is a great chassis. We're proud of the standard Dynamic chassis, and we've heightened its responsive, in-command driving experience.

And as soon as you get behind the wheel, you'll discover another great example of Scandinavian design around people. Seats have been a Volvo strength since the 1970s, when we enlisted ergonomic experts to help us develop a supportive shape that ensures you arrive fresh and relaxed after even the longest

journey. With the XC60, we've been able to retain the comfort but make the seats even sportier, as befits a true driver's car.

Then, there's the sheer build quality. You can always tell true craftsmanship by looking at the details. The XC60 has beautifully styled integrated tailpipes, which are the physical and visual link to our technically advanced, highly efficient new generation of powertrains.

A refined and dynamic SUV also needs to have impact. With its strong shoulders and V-shaped bonnet, it's unmistakably a Volvo and carries itself with pride. The wide grille seems ready to devour the road ahead, while the expressive headlights appear as if they've been shaped by the wind at high speed. These dynamic design cues dovetail beautifully with elements emphasising the height and stature: in the front, the striking vertical daytime running lights, and in the rear, the elegant vertical light cluster, which has become an iconic Volvo signature in its own right.

"It's the perfect car for demanding drivers in search of refinement and freedom – both in town and beyond the city limits."

VOLVO XC60

*Meet the SUV that's
GREAT to drive.*

Your lifestyle says you need an SUV; your heart says you want a stylish, driver-focused road car. If this is your dilemma, we've designed our Volvo XC60 as your solution. It's the perfect car for demanding drivers in search of refinement and freedom – both in town and beyond the city limits.

You really have to drive an XC60 to appreciate its superb handling. Thanks to its class-leading chassis and Corner Traction Control, a system that makes cornering even more fun, it doesn't feel like a towering, top-heavy SUV: it's every bit as nimble and agile as a ground-hugging road car.

At the same time, its ride height gives you a commanding driving position when negotiating busy city traffic, for which the perfectly proportioned XC60 is ideally suited. And it's reassuring to know that when the temperature drops, your XC60 is built to take adverse conditions in its stride.

We Swedes like to think we're
too nice to judge things on their looks.
We're not.

"I was inspired by a river near my home," explains the exterior design manager Steve Potter. "The water was flowing incredibly fast over the rocks. We set about creating this visual tension and constant movement, which changes depending on your point of view – it's alive. The result is a very human, organic feel."

Our XC60 gets a smarter, more purposeful look that's as much at home on a city street as a country lane. We've refined the design

so the car is now all one body colour, which gives our SUV a more urban twist. The new headlamps give the XC60 a focused, determined face with huge road presence, and the intense vertical daytime running lights are positioned far out to the corners of the car to emphasise the height and stature.

True to our Scandinavian design principles, we've worked on every last element to reduce what our designers call visual "noise". We care

about small details like moving the washer nozzles out of sight and masking anything that might detract from the elegant, clean surfaces. The strong shoulders are another Volvo design cue – as is the grille with the iconic Volvo diagonal. Together, they tell the world that this car is proud to be a Volvo.

*"We're famous for our seats
– they're a proud tradition for us at Volvo Cars."*

We've designed the cockpit around you, the driver. Get inside and feel in complete command as the dashboard gently angles towards you. We were inspired by high-performance motorbikes when we came up with the idea of a single round instrument flanked by two smaller dials. Then, we carefully sculpted the three-spoke steering with the aim of giving you a very physical sense of connection between your car and the road. But where you sit is even more important. "We're famous for our seats," says Stefan Sällqvist, "they're another proud tradition for us at Volvo Cars. Our sport seats look

fantastic and, true to our unrelenting commitment to ergonomic design, you'll be able to drive for hours sitting in it without getting tired. It also has great side support all the way from your thighs to your shoulders, so the seats keep you firmly in position even when you're cornering fast."

And because it's a Volvo, we designed the seats so your passengers will enjoy the ride too. Everybody travels first class, and with our two-stage integrated booster cushions children over 3–4 years will ride safely in comfort while seated at the right position.

No need to take your hands off your steering wheel as you shift up and down the automatic gearbox in manual mode – just flick through the gears with our optional gearshift paddles. You'll be in total command of your car, with both hands on the wheel. And quicker gear changes give your drive an additional edge when you're in the mood for upping the tempo.

*"Think of the XC60 like a coat
– just a very stylish and practical one."*

ALL THE BEST PLACES ARE TOUGH TO GET TO.

See you there, then.

In Sweden, we say there's no such thing as bad weather, just the wrong clothes. We think that applies to cars, too. We've always designed our cars to incorporate the latest driving technology so you can go anywhere regardless of what the weather is throwing your way. Think of our cars like a coat – just

a stylish and practical one. Choose an All-Wheel Drive variant, and your XC60 will be unfazed by any kind of weather, even if roads are poor. Hill Descent Control boosts that capability even further, making the XC60 a true all-round vehicle. On the motorway and twisty country lanes, the overall impression is

one of powerful agility and assurance. Apart from the standard Comfort chassis, there's also our optional Touring chassis, which we've spent thousands of hours tuning for a responsive, in-command driving experience. And for an all-out sporty ride, there's our stiffened Sport chassis.

“Sensus is about making your interaction with your car intuitive, and ensuring you’re on the road, but not offline.”

SENSUS

The intuitive way to interact with your car.

Volvo Sensus is our all-encompassing approach that connects you with your car and the world around you. It means you're on the road, but not offline. With Sensus Connect, you can turn the seven-inch screen in your dashboard into an internet-connected infotainment hub. Not only can you surf the web, you can also download apps – from Rdio to Stitcher and Tuneln. Sensus Connect also gives you access to basic internet maps and routing, and to take advantage of navigation guidance, 3-D views and navigation apps, there's our Sensus Navigation option. If you'd like to take your connectivity to the next level, there's Volvo On Call. This option gives you 3G-connectivity with excellent reception

through your car's integrated roof aerial, so you can create a Wi-Fi hotspot for all of your devices. Meanwhile, Connected Service Booking allows you to book your car in for a service from the comfort of the driver's seat.

A high-end audio experience is also part of Sensus. That's why we've designed our state-of-the-art Premium Sound with Harman Kardon®. Using 12 high-fidelity loudspeakers, the amplifier is equipped with Dirac Live®, the next generation sound enhancement software. With an incredibly realistic stage sound as well as enhanced bass performance, this sound system provides an unparalleled aural experience for every passenger and connects easily with external media players.

Our digital driver display is another delight. Not only does it give you all the information you need without overwhelming you – its three background modes, Elegance, Eco, and Performance, also sync with the centre screen. The physical controls, such as our floating centre stack with its iconic 'manikin' climate control buttons, are another example of Swedish design that's both functional and beautiful. And then there's our eye-catching illuminated gearshifter, which is available for selected automatic gearboxes. Glowing gently in the dark, it adds a touch of atmosphere to your night drives.

A special connection. Volvo On Call allows you to connect with your car as never before, while also connecting your car to the outside world.

At its heart is a smartphone app you can use to check on – and interact with – your car no matter where you are. This is very handy if, for example, you want to pre-heat your car in time for your arrival. And to go online, the package includes a built-in modem and dedicated SIM-card slot. Volvo On Call also provides help when you need it most. The On Call button in the cabin puts you through to breakdown services. And in emergencies, the cabin's SOS button provides an instant link to a team of Volvo Car crisis managers. To cover any eventuality, if there are indications that you've had an accident (such as a deployed airbag), we will call you. If there's no response, we'll send the emergency services to you straight away.

SENSUS

*“Our vision is to design cars
that should not crash.”*

INTELLISAFE

Intuitive safety by Volvo Cars. For you, and for those around you.

At Volvo Cars, safety is an intrinsic part of our DNA. We've invented some of the world's most pioneering life-saving technologies – such as the three-point safety belt that's been acknowledged one of the most important innovations of mankind.

But we aim higher. Our vision is to design cars that should not crash. In the shorter perspective the aim is that by 2020 nobody should be killed or seriously injured in a new Volvo.

IntelliSafe is our approach for a more harmonious relationship between cars and people. To achieve this, we have infused your Volvo with smart, intuitive innovations for a safer drive. And the IntelliSafe technologies help protect not only the people inside your car – we also consider people on the outside, for example with technology that helps you to detect pedestrians and cyclists.

When you drive at speeds up to 50 km/h, our City Safety collision avoidance technology looks ahead of you and brakes automatically

if you're about to run into a vehicle in front. To give you more support at higher speeds, our Collision Warning with Auto Brake and Pedestrian and Cyclist Detection alerts you if you're too close to a vehicle and a collision is imminent – day or night. During daylight, the system also reacts if there's a pedestrian in your path or a cyclist ahead travelling in the same direction as your car. And should you not react to the warning, your car brakes automatically to help you avoid or mitigate a collision.

If your car should begin to drift between the lanes, our Lane Departure Warning technology will alert you – there's even Driver Alert technology that reminds you to take a break in case your driving behaviour shows signs of drowsiness.

Our IntelliSafe technologies also support your daily driving. The Road Sign Information technology keeps you updated on actual speed limits and other important road signs. At night, our Active High Beam stays on high

beam all the time to optimise your vision without dazzling other road users. And to make you a bit more relaxed on the road, our Adaptive Cruise Control can maintain your set speed and distance to the vehicle in front. In slow-moving city traffic, our Queue Assist function can automatically maintain the selected distance to the car in front – from standstill and up to 30 km/h. Our BLIS system helps you to early detect other vehicles in your blind spot, while the Cross Traffic Alert function facilitates reversing out of tight parking spaces where your vision can be restricted.

And because we know you love to drive, our active IntelliSafe technologies like Electronic Stability Control add to reassuring driving stability in all conditions without sacrificing the joy of driving. It's simply about giving you the most human driving experience, on your terms. And helping to keep people out of harm's way, whether they happen to be inside or outside your car.

Light up the dark. Driving in the dark just became a lot more enjoyable and safer. Our Active High Beam stays on high beam all the time. You don't have to flick between low and high beam, and when you meet or catch up another vehicle the system shades out only as much of your beam as necessary to avoid dazzling – while you still get the benefit of a brightly lit road. This intelligent technology can even recognise pedestrians and cyclists and avoid dazzling them too. And when you enter a city, the high beam shuts off.

FIND OUT MORE AT VOLVOCARS.COM

INTELLISAFE

In town, City Safety is designed to prevent you from colliding with the car in front if it stops, or slows suddenly. This advanced IntelliSafe system will automatically brake to avoid a crash and works at speeds of up to 50 km/h – an accident can be avoided at a speed difference of up to 15 km/h to the vehicle in front.

Because we also care about other road users, our pedestrian and cyclist detection with full auto brake watches out for people walking in your path or cycling in the same direction as your car and applies the brakes if you're unable to react in time.

Our BLIS system uses radar sensor technology to alert you to vehicles that are close to or in your blind spots in your adjacent lane. This way, you're far less likely to change lanes when it isn't safe.

When you're reversing out of tight parking spaces, our Cross Traffic Alert function watches out for vehicles you can't see.

“Our commitment to performance at ever lower fuel consumption means that our entire powertrain range will soon consist of a new generation of highly efficient 2.0 litre, four-cylinder engines.”

DRIVE-E

Enjoying more. Using less.

Drive-E isn't just about our new generation of efficient powertrains, it's about our all-embracing approach to sustainable driving. And while we're committed to creating smarter, more innovative technologies to reduce our cars' impact on the environment, we'll never lose sight of the pleasure to be had in driving. In short, we believe you don't need to sacrifice power and superb driveability for efficiency and low CO₂ emissions.

Our Drive-E powertrain range consists of highly efficient 2.0-litre, four cylinder petrol and diesel engines. We've mated these turbocharged, low-friction, light-weight powerplants with Geartronic®, our all-new eight-speed automatic gearbox, which ensures you get optimum performance at any engine speed.

Your Volvo also has an ECO+ function which can reduce fuel consumption by up to five per cent, depending on driving style. ECO+ not only optimises shift points, engine control and throttle response. It also includes a Stop/Start system and an ECO coast function. This disengages the clutch when you release the accelerator at speeds above 65km/h: instead of the engine braking the car and using up fuel in the process, your Volvo will coast along using its kinetic energy.

Our Drive-E diesel powertrains have additional technologies designed to reduce fuel consumption and emissions. Twin turbochargers and the revolutionary i-ART ensure that these intelligent engines provide responsive, clean and efficient performance – each cylinder has its own microchip and

pressure sensor for perfect metering of fuel. Better still, these advanced engines remain in precise tune even after years of use.

Of course, we're committed to a clean environment inside your car as well. As part of CleanZone, all materials in your Volvo's interior are hypo-allergenic and do not emit harmful gases. CleanZone also includes a highly effective dust and pollen filter. You can boost this further with our Interior Air Quality System. This uses an active carbon filter to reduce harmful gases and particles, enabling that you and your passengers breathe easy – even in polluted cities.

DRIVE-E

The Volvo XC60 is available with a wide range of cutting-edge petrol and diesel engines designed to meet your preferences. All of them are designed to offer maximum driving pleasure while using fuel efficiently and keeping CO₂ emissions at a minimum.

Is fuel economy your priority? Then choose our 150hp D3 engine, which consumes just 4.5l/100km and emits 117g CO₂/km. And if you want a high performance option, there's our 220hp D5 with All-Wheel Drive, which emits 137g of CO₂. Meanwhile, our petrol offer ranges from our 245hp T5 engine with 157g CO₂ emissions to our highly efficient super- and turbo-charged T6 powerplant, which puts out 306hp at 163g CO₂ emissions.

Fuel consumption and CO₂-emissions figures apply to manual cars.

Which XC60 are you?

Congratulations, you've chosen a Volvo XC60. Now you've decided on your preferred engine, all you need to do is select the trim level that's right for you. We've made it easy for you by providing five that we think you'll love. Whether you'd like all the trimmings or a sporty look both inside and out, we have the right one for you.

XC60

Includes:

17" Segin aluminium wheels | 3-point safety belts on all 5 seats with belt reminder | 40/20/40 split rear seat | Airbag, driver & passenger side | AUX input | Black roof rails | Charcoal decor inlays | City Safety | Corner Traction Control (CTC) | Dual cup holders, front | Electronic Stability Control (ESC) | Electrically operated parking brake | Electronic Climate Control (ECC) with ventilation outlets in B-pillars | Front seat 12V outlet | Hill Descent Control (AWD) | Headlamp level adjuster | Illuminated vanity mirror, passenger side | Inflatable Curtains (IC) | ISOFIX, rear | LED DRL (Daytime Running Light) | Load cover | Lomma textile upholstery | Outer temperature gauge | Roll-over protection system | Roll Stability Control (RSC) | Remote control central locking | Sensus infotainment with 5" colour screen in the centre stack and Performance audiosystem with CD player | Side impact airbags integrated in the front seats | Trip computer | Tyre Pressure Monitoring System (TPMS) | Tyre sealant kit | WHIPS (whiplash protection integrated in the front seats)

KINETIC

Includes Base equipment level plus the following:

Audio controls in steering wheel | Cruise control | Illuminated vanity mirror, driver side | Leather-clad gear knob | Leather-clad steering wheel | Textile floor mats

MOMENTUM

Includes Kinetic equipment level plus the following:

Automatically dimmed frameless inner mirror | Bluetooth® | Bright work side windows, lower | Eriksberg textile/T-Tec upholstery | High Performance audio system | Leather-clad steering wheel with Silk Metal inlay | Metal luggage threshold | Park assist rear | Rain sensor | Retractable rear-view mirrors with ground lights | Shimmer Graphite Aluminium decor inlays | Uni decor climate control manikin

SUMMUM

Includes Momentum equipment level plus the following:

18" Pan aluminium wheels | Digital driver display | Chromed lower door mouldings | Leather upholstery | Power driver seat with memory function for seat and side mirrors | Rear armrest with cup holders and storage | Roof rails, bright

VOLVO OCEAN RACE EDITION

Can be added to Kinetic or Momentum equipment levels.

18" Portunus aluminium wheels | Volvo Ocean Race logotype in front seats | Volvo Ocean Race emblem on front fender | Volvo Ocean Race floor mats | Leather upholstery with a sailing inspired sporty-techy look | Luggage area load cover with a printed Volvo Ocean Race route map | Roof rails bright | Start-up logotype in digital driver display | Unique Volvo Ocean Race deco inlay | Unique stitching on door panels | Volvo Ocean Race instep plate

R-DESIGN

Can be added to Kinetic, Momentum, or Summum equipment levels.

18" Ixion aluminium wheels | 3-spoke perforated leather-clad steering wheel with metal R-Design badge | Digital driver display with R-Design theme | Dual exhaust with visible tailpipes | Inscription Charcoal headliner | LED dayrunning lights (R-Design) | Leather-clad Sport gear knob | Nubuck textile/leather upholstery | R-Design interior decor trim inlays | Rear-view mirror caps in silver metallic | Sport chassis | Sport floor mats | Sport pedals | Sport seats | Stainless steel treadplates with R-Design logo | Unique R-Design front design | Unique R-Design rear diffuser

RDESIGN

Would you like to enhance the dynamic personality of your XC60 even further? Well then, R-Design is for you, with a range of features to give your Volvo a sporty, unique profile.

But R-Design is so much more than a cosmetic exercise – as with the all best Scandinavian design, form follows function. An R-Design XC60 benefits from a stiffer Sport chassis and more direct steering, all of which means you enjoy getting to your adventure even more.

READ MORE AT VOLVOCARS.COM

Mirror caps and window frames in silver metallic finish and the unique front diffuser are a subtle reminder that your R-Design is out of the ordinary.

“Our optional R-Design Sport chassis has been lowered and stiffened for even better cornering – meaning you’ll enjoy the thrill of driving your XC60 even more.”

For an exterior with a more individual, sporty look, R-Design offers gorgeously sculpted alloy wheels and unique door mirror covers in silver metallic. At the back, a motorsport-style diffuser enhances your car’s dynamic presence, while the R-Design chrome dual exhaust pipes add the perfect finishing touch to the exterior of your XC60.

The R-Design story continues in the interior, starting with supportive sport seats in Nubuck textile and leather. Also included is an exclusive R-Design steering wheel as well as sport pedals. A gear shifter gaiter with contrasting stitching, our unique blue R-Design digital driver display, interior LED lighting and a striking Inscription charcoal headliner all add to the R-Design experience.

"To finish first, first you must finish."

Experience a human challenge. At the comfort of a Volvo.

Imagine a merciless 70,000km trip across the oceans for nine months, to endure 10-metre waves, blistering 40-knot storms and unrelenting discomfort 24 hours a day. Living at the mercy of nature's powers, totally depending on your skills, your gear and your teammates. Facing the most extreme physical and psychological conditions, testing the human abilities to the limit. Constantly being thrown between hope and despair, knowing that a single error might wipe out years of preparation in an instant.

Well, we guess this is quite far away from your everyday life (unless you're a crew member on any of the participating boats of

the Volvo Ocean Race, of course). Good news is there's a way for you to share pieces of this epic race – even during the not-so-challenging commuter moments you're stuck somewhere between A and B.

As a tribute to the courageous men and women on board the hi-tech Volvo Ocean 65 vessels, we created the Volvo XC60 Ocean Race Edition – an XC60 featuring some very special design elements to catch the spirit of a very special human challenge.

You'll notice it already from the outside: the specially-designed 18-inch Portunus wheels (named after the God of ports), the roof rails and the bright chrome window

frames. And safely on board, you and your crew will find yourselves surrounded by a meticulously crafted sporty-techy interior featuring details such as leather seats with contrasting orange stitching, a unique Volvo Ocean Race deco inlay, Volvo Ocean Race textile mats and a load cover with a printed route map. Finally, every time you start up, the Volvo Ocean Race Logo appears in your centre screen. So while you enjoy the all-road comfort and all-weather capability of your Volvo, you'll be reminded of one of the most challenging adventures on the planet – the one around it.

The unique 18-inch Portunus wheels feature a wind-swept seven-spoke design. The impression is of a car ready to throw itself into the journey. Then, there is the Volvo Ocean Race logotype on the front wings: they're an additional pointer that this car is truly special.

The charcoal leather seats have unique orange stitching, as well as a Volvo Ocean Race logotype embroidered in orange.

The load cover has the route of the Volvo Ocean Race printed on it, evoking the spirit of adventure every time you load or unload your Volvo.

The exterior colour you choose has a dramatic impact on the personality of your Volvo. But no matter which you choose, each one imbues the car with a sense of luxury and presence.

"Our colour palette is very Scandinavian," says Ebba Maria Thunberg, who is responsible for colours and material. "When you look at our

palette, you'll find that it contains softer tones that are more connected with nature, with a few bold splashes." Being Swedish, our designers are inspired by the ocean and the sky, but also by the shore and the way the light changes throughout the seasons. Every tone speaks of uniqueness, quality and charisma.

Your XC60 is your home away from home. Give it your signature.

Choose an XC60 and you'll enjoy an elegantly designed cabin as standard, with a superior finish in evidence everywhere you look – from the silk metal finish on our air vents to the fine cloth surfaces on the door pillars.

Our Comfort seats can be ordered in Lomma textile, Eriksberg T-Tec/textile or leather, while our sport seats in leather give you legendary Volvo comfort while also keeping you firmly in place in those fast

corners. Choose our heated three-spoke steering wheel and you can gently warm your hands in cold conditions. There's an easy-to-read analogue driver display or if you prefer, try our new digital driver display.

Our Inscription offer consists of a palette of luxurious options, which you can combine in your own way, giving you the opportunity to truly design your car around your own taste. The Inscription Linear Walnut console has a

symmetrical V-shaped fishbone pattern where the grain meets in the middle. It's this level of design detail that gives the Inscription range its sophistication. Other touches include our Inscription Leather Instrument panel and our stunning Inscription Charcoal headliner in the roof interior.

"Our park assist camera, front blind view allows you to 'see around corners' as you negotiate tight exits."

NO TWO LIVES ARE THE SAME. *Make sure your Volvo matches yours.*

The most pleasurable part of buying a new Volvo is putting your personal stamp on it. You can do that by choosing accessories that reflect your own taste and that cater to your particular lifestyle.

There's nothing more challenging than trying to negotiate tight exits and junctions with restricted visibility. Our park assist camera, front blind view, takes the stress out of these situations. It allows you to "see around corners" with a 180° field of vision to the left and right in front of you. The image is projected onto your seven-inch centre display so you know exactly who, or what, is approaching.

Our park assist camera, rear does the same job when you reverse. It's mounted in the boot lid and dramatically increases your field of vision behind the car. The image is

projected onto your centre display, so you can spot any low obstructions when manoeuvring. There's also a zoom-in view you can use to hitch up a trailer to your towbar. It's so good, you might even start to enjoy the situations you used to dread.

Since there can only be one driver at a time, the XC60 also offers some premium amusements for your rear seat passengers. Our Rear Seat Entertainment system with 8-inch touchscreens and integrated DVD players can operate independently. Wireless headphones are standard (you can also plug in your own wired headphones), so one's game doesn't fight with another one's movie.

For your children, we have three Volvo Cars-approved child seats available. Infants of up to one year (or 13kg) travel safely in our rear-facing infant seat. Side wings give

protection in a side impact, and you can easily adjust the padded headrest and five-point harness. There's a canopy to block the sun, too. This infant seat is also easy to carry and can be used as a carrycot.

Our convertible child seat is suitable for children aged nine months to six years (or 9–25kg). It's fitted using the car's safety belt and is easily adjusted to help optimise comfort and safety.

Finally, our booster seat helps position children weighing 15–36kg at the correct height for the safety belt and is designed to optimise side impact protection. The headrest and width adjust easily to enhance comfort, and the backrest can be reclined when your child wants to rest.

To reinforce your XC60's dynamic stance, you can customise it with our Exterior Styling Accessories, which are available in Matte Silver or Iron Stone finish.

Our eye-catching front bumper bar gives your XC60 an even more purposeful look, with a metallic finish that's beautifully accentuated as it catches the light. The integrated running boards emphasise the sleek lines, visually connecting it close to the road. And the rear skid plates with beautifully sculpted double integrated tailpipes boldly underline the dynamic character.

READ MORE AT VOLVOCARS.COM

The wheels are the jewels of your car. Our gorgeous 20", Diamond-Cut Candor alloy wheels feature a six-spoke design in Matte Black or Matte Iron Stone finish, making sure your entrance doesn't go unnoticed.

“With the dog gate, you can open the tailgate without your dog leaping out – which makes life so much easier.”

No matter what you like to do in your spare time, there's a pack & load accessory for you. Our exclusive, aerodynamic Space Design roof box looks great, is voluminous and offers minimal wind resistance. It can be opened from both sides and is available in Titan Silver or Black, as well as two sizes: 320 or 430 litres, with a maximum load of 75kg.

If you carry large sports equipment, our roof load carriers are essential. Fitted directly onto your car's roof rails, these aerodynamically designed aluminium load carriers provide an easy-to-use rooftop carrying system which you can then combine with our other pack & load accessories, such as our skiholder, roof-mounted bicycle holder or our Space Design roof box.

For the load compartment in the rear, there's our steel safety grille, which is an alternative to the standard safety net. This gas-sprung steel grille is colour-coordinated with your interior and helps to protect you and your passengers from unsecured loads when

braking sharply. And when you don't need it, it folds conveniently up against the roof.

Our load compartment divider is another great accessory. Used together with the steel safety grille, this divides the load compartment into two sections – convenient if you want to carry your dog and luggage, or to separate grimy or fragile cargo from other cargo.

Finally, to give your pet a place of its own, you can complement the safety grille and load compartment divider with our dog gate. It allows you to open the tailgate without your dog leaping out – which makes life so much easier.

The simplest way to own a car.

We love it when you're happy. When things are easier than you expect, or go faster and become better. Because when you buy a Volvo, you buy the simplest way to have a car. Financing, insurance, servicing, changing tyres, cleaning – those aspects of car ownership that you might not find very interesting, are the ones that we love to make easier and better for you. That's why your

Volvo Car dealer will always offer you a whole range of simplifying services and offers all designed around you, giving you the most carefree ownership experience possible.

Still, this is just the beginning. Through our uniquely Swedish approach to innovation, we continuously find new ways to make your life simpler. For instance, the Connected Service Booking function, which lets you book an

appointment just by pushing a button in your car. Or the new way of working in teams – like in a racing pit-stop – that is gradually being introduced in Volvo Car workshops all over the world. We call it Volvo Personal Service and it will make your workshop visits much shorter and more convenient. In the future, servicing your car will be so much simpler.

MY VOLVO

My Volvo is a personalised website that contains everything you need to really get to know – and get the most out of – your car. It gives you:

- A complete overview of your Volvo Car ownership
- Easy access to all facts relating to your car
- Personalised offers and exclusive discounts
- Helpful tips regarding your specific Volvo model
- Instructional films and owner's manuals
- Online Service Booking
- Reminders regarding important stages of your car ownership
- Exclusive articles, films and photographs

CONNECTED SERVICE BOOKING*

If your Volvo has Sensus Connect, it will remind you when it needs servicing and offer to contact your Volvo Car dealer for you. Booking proposals sent from your preferred dealer can easily be managed directly in the car or on your personal My Volvo website. When the time comes to drive to your workshop, your Volvo will remind you and even guide you there. And since your Volvo tells us what it needs, we can make sure it always receives the service it requires when it gets there.

* Available depending on introduction date. Please Contact your Volvo Car Dealer.
